MAKING HSA CONTRIBUTIONS

If you have a personal bank account linked, you can contribute to your HSA outside of your payroll deductions through the Mobile Application or the Consumer Portal by selecting the [Contribute to HSA](#) link from the [Accounts](#) tab under [I Want To](#). If you do not have a bank account linked this can be accomplished by submitting an *HSA Contribution form*, available under the [Tools & Support](#) Tab. 1. To contribute to your HSA via the Consumer Portal, you must first provide your bank account information. If you have not added your bank account, click on your name at the top, and then click on [Banking](#). For additional information visit the [‘Add a Bank Account’](#) section for steps on how to add a new bank account.

Note: *Contributions from a personal linked bank account into your HSA are post-tax dollars. You may be able to claim these on your tax return as tax deductible items (<http://www.irs.gov/pub/irs-pdf/p502.pdf>). If you prefer to have pre-tax contributions, please notify your employer.*

2. You can choose to set up a recurring contribution on a schedule. By clicking on schedule it will prompt users to decide a frequency, schedule and start date. If you do not need the contribution to recur, select [One-Time](#).
3. Enter the amount of the contribution and indicate the tax year (if applicable – the prior tax year will show if it is January, February, March or before the tax filing deadling of the current year)
4. You will be prompted to read and agree to the disclaimers regarding the contribution to your HSA. Once you check the box and click [Submit](#), your contribution will be initiated.

Setting up Investments

To start investing a portion of your HSA funds, you will select the [Start Investing](#) button on the [Investment Summary](#) page and establish your investment sweep threshold. The sweep amount must be set equal to or above \$1000 and in increments of \$100.

Automatic Investing

Once you have selected your sweep threshold you will be prompted to select an option for how you will proceed with selecting your investment funds.

- **Guide Me:** This option will walk you through a series of questions to help you make an informed decision for your investments.
- **I Want to Do it Myself:** This option will bring you to the Update/Confirm Elections page and allow you to select your own investment percentages and funds; if you do not select investment funds, the funds will automatically go into a default fund. Your percentages must total 100% and must be whole percentages.
- **Manual Investing One-time Transfer:** This option allows you to manage your investment transfers into and out of your investment account without enabling automatic transfers using your investment sweep threshold.

Managing Investments

The [Investment Summary page](#) gives you the ability to buy and sell investments individually as well as change investment selections and auto-rebalance your funds. This page provides insight into your investments balance, how it can grow over time, and how each investment fund is performing.

The [Investment Balance graphs](#) allow you to see your current monthly investment balance for the past 12 months as well as calculate the projected growth of your cash balance as you utilize investments and allow your funds to stretch over the years you plan to spend in retirement.

[Portfolio Breakdown](#) will reflect on the Investment Summary Page and shows the percentage of the current balance in each fund and/or asset class. A breakdown of future investments can also be viewed if elections have been setup.

[One-Time Trades](#) allows for a one-time transfer from your cash account to [Buy Investments](#) or from your investment account to your cash account to [Sell Investments](#).

For a [One-Time Trade](#), if the investment sweep threshold is enabled and Buy or Sell Investments is selected, you will be taken to the **Update Automatic Investment Transfer Page:**

- **Disable Automatic Investment Transfer:** This can be reactivated any time.
- **Edit Automatic Investment Transfer Threshold:** Temporary turn automatic investment transfers off until a specified date and/or change your automatic investment threshold.
- **Change Automatic Investment Threshold Only:** Increase or decrease your investment threshold to maintain a new threshold amount in your cash account.

Note: If Auto-Transfers are enabled, they will need to be turned off if you wish to perform a manual transfer.

If the investment sweep threshold is not enabled, you can proceed to **Make an HSA Transaction:**

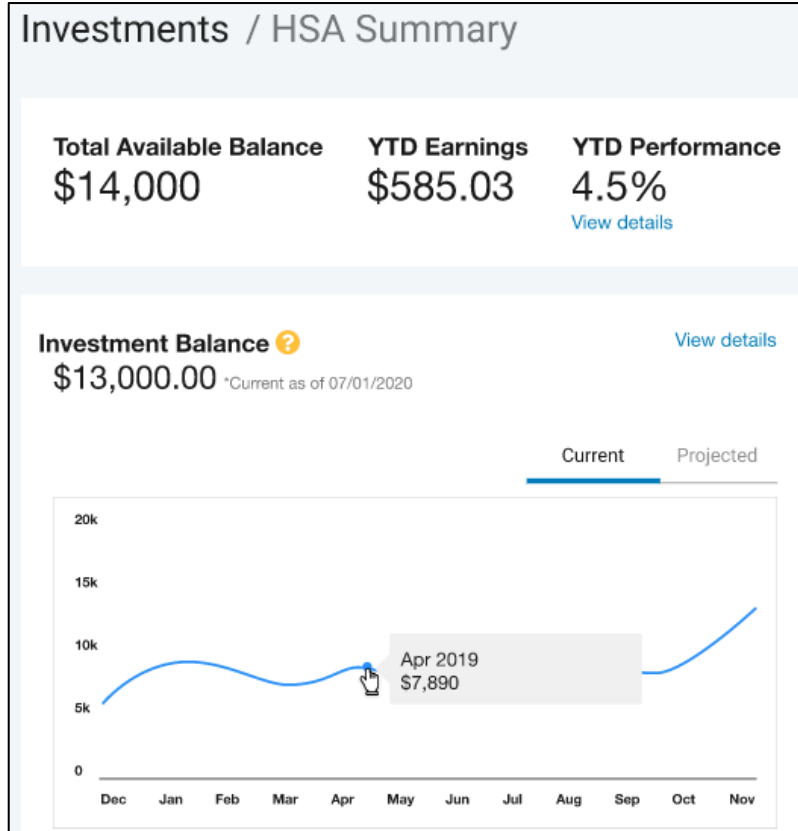

- **Transfer based on my investment election:** This option will allow you to input a dollar amount you would like to buy/sell. The amount you specify will be bought/sold based on the percentage of your portfolio invested in each of your funds.
- **Transfer into/from specific fund(s):** This option will allow you to input the dollar amount you would like to buy or sell from each specific fund.

 Use the question mark symbol for indication if a fund is not available to be sold, elected, and/or transferred.

Investment Auto-Transfer

- **Auto-Transfers to or from an Investment Account:** The option for this can be accessed within the [Investment Summary](#) page under the Cash Balance section at the top of the page. This turns transfers on or off to or from your investment account, as well as changes the threshold amount that controls automatic transfers to your investment account.

Note: Debit Card transactions will pull from your available cash balance in your account. If you are completing a transaction with your debit card, you will not be able to use any investment dollars earned. However, if you opt into investment sweeps this could result in an investment sale to maintain your cash balance.

The chart can be filtered down further by selecting [Filter By](#) at the bottom of the graph. Selecting a filter to filter by will apply the filter both the graph and the list of expenses. The bottom of the expense page shows options for each individual expense. Clicking on an expense displays options such as upload a receipt, add a note about the expense, mark an expense as paid if you paid the expense from an outside source, remove the expense, and update an expense.

-  The red dollar sign icon indicates the expense has not been paid.
-  The green dollar sign icon indicates the claim expense has been paid.
-  The yellow dollar sign icon indicates a claim expense has been partially paid.
-  Use the question mark symbol to view information about each field.

FAQs

How do I change my HSA payroll deduction amount?

You can change your HSA payroll any time during the year with your employer, who will adjust the amount being deducted from your paycheck.

How do I change my FSA/DCA payroll deduction amount?

FSA/DCA plans only allow changes to your election (that would in turn update your payroll amount) with a qualifying life event such as the addition or loss of a qualifying dependent. Contact your employer for more information.

What do I do if a provider or my health insurance refunds me for an expense I paid for with my benefit account or I requested funds in error?

For an FSA/HRA this can be submitted via check along with the claim number to the standard PO Box on claim notifications, or you may contact our call center to have the corresponding claim denied so that you can repay the claim within our online portal. If the provider refunds your debit card the account will be repaid, but you may need to contact the call center if the corresponding claim is still asking you to take action and we can have the refund applied to that claim.

For an HSA, this can be submitted along with the Contribution Form, indicating that this was a "Mistaken Distribution". You can either deposit the funds into a personal account and then issue a check from this personal account for the funds, or sign the check over to your HSA account and mail this to the address on the form. If the funds were returned to your debit card, these will route directly into the account they were originally debited from and no further action is required.

What if I use my HSA to pay for something other than a qualified medical expense?

If HSA funds are used for other than qualified medical expenses, the expenditures are subject to applicable income tax and, for individuals who are not disabled or over the age of 65, subject to an additional 20% tax penalty.

Can I reimburse myself with HSA funds for qualified medical expenses incurred prior to my enrollment in an HSA?

No. Qualified medical expenses may only be reimbursed, tax-free, if the expenses are incurred after the date your HSA was established.

Once I request a transaction, how long does it take for my funds to be available?

If you have a bank account added to your account this can take as little as 3 business days for an HSA transaction. However, a check can take up to 7 business days to arrive. For HRA/FSA/DCA claims this will be dependent upon if the claim documentation is approved.

What do I do if my debit card declines or doesn't work?

Ensure you have activated the card, and have logged into your online portal to accept your terms and conditions. Within your profile, confirm you have the correct and most recent card by verifying the last four digits. Check your balance and verify via your activity that there are no pending transactions you have not accounted for. If using the card at the retail pharmacy ensure the item is coded as HSA/FSA eligible. Still unable to determine the cause? Call our customer service team who can verify the cause and best solution.

Who qualifies for an HSA?

Generally, an eligible individual is anyone who meets all of the following criteria unless an exception would apply: Covered under an IRS qualifying HDHP; Not covered by any other health plan that is not an HDHP; Not currently enrolled in Medicare or TRICARE; May not be claimed as a dependent on another individual's tax return.

Who qualifies as a dependent?

A person generally qualifies as your dependent for HSA purposes if you claim them as an exemption on your Federal tax return. Please see IRS Publication 502 for exceptions. www.irs.gov/pub/irs-pdf/p502.pdf

How can I grant my spouse access to my account?

You may submit a Power of Attorney Form or an Authorized Representative Form. These forms can be found via the consumer portal or your employer.

Can I use my HSA/FSA to pay for medical expenses for a spouse or dependent?

Yes, you may use your HSA funds without penalty to pay for qualified medical expenses for yourself, spouse or dependent even if they are covered under another health plan. Consult a qualified tax advisor for advice.

PAYCHEX BENEFIT ACCOUNT CONSUMER GUIDE

What can I use the HSA for?

The funds in the HSA can be used: to pay for qualified medical, dental, vision and prescription drug expenses, including over-the-counter drugs that have been prescribed by a doctor, as defined in IRS Publication 502; As supplemental income – if you are under age 65, money withdrawn is taxable and could be subject to an additional 20 percent.

Can I enroll in both an HSA and an FSA?

If you enroll in both an HSA and an FSA or HRA, you cannot make deductible contributions to the HSA for that coverage period if the FSA or HRA are "general purpose" arrangements that pay or reimburse for qualified medical expenses. However, you still may be able to make deductible contributions to an HSA even if you are also covered under an FSA or HRA if those arrangements are "limited purpose" FSAs or HRAs that restrict reimbursements to certain "permitted benefits" such as vision, dental or preventive care benefits. Other permissible combinations include "suspended HRAs" and "post-deductible" FSAs or HRAs. Contact your legal or tax adviser to review these situations.

If I change employers, what happens to my HSA?

Since you are the owner of the HSA, you may continue to maintain the account if you change employers. HSA to HSA transfers are permitted and do not impact tax reporting if you are enrolled in an HSA in the future.

Who may contribute to an HSA?

Anyone may contribute to the HSA of an eligible individual. If an employee establishes an HSA, for example, the employee, their employer, or both may contribute to the employee's HSA in a given year. If a self-employed or unemployed individual establishes an HSA, that individual may contribute to the HSA. Family members may also make contributions to an HSA on behalf of another family member as long as that other family member is an eligible individual. Keep in mind, all contributions from all sources count toward your IRS maximum contribution limits.

Can I move my HSA to my spouse's HSA and vice versa?

No. As HSA's are linked to each individual HSA account holders are unable to move their HSA funds to another individual's HSA, per IRS regulations.

Who is responsible for determining whether HSA distributions are used exclusively for qualified medical expenses?

As the HSA account holder, you must ensure that distributions are used for qualified medical expenses. Records of medical expenses should be maintained as evidence that distributions have been made for these purposes. You are responsible for ensuring contributions to the HSA do not exceed IRS limits.

What happens to the HSA if I die?

If you are married and your spouse is a named beneficiary, she/he becomes the owner of the account and assumes it as his/her own HSA. She/he may also elect to have the HSA closed and distribute funds in the form of a check. If you are unmarried, your account will cease to be an HSA. It will pass to beneficiaries or become a part of your estate, and be subject to applicable taxes.

When will tax documentation become available?

You will receive a 5498-SA for the Contributions that have been made, this tends to generate by end of February. You will not need this one for filing taxes. You will only receive a 1099-SA if there were Distributions made. The 1099-SA is needed for filing taxes and tends to generate in the end of January.

Will HSA contributions that I made via lockbox deposit or online show up on my W-2?

No. Contributions made by either of these methods are considered after-tax contributions for purposes of W-2 reporting. In order to receive the tax benefit of after-tax contributions, you must claim them on your tax return.

Is tax reporting required for an HSA?

Yes. IRS form 8889 must be completed with your tax return each year to report total deposits and withdrawals from your account. You do not have to itemize to complete this form

How do I submit my itemized receipts for my HSA?

You will not need to submit your itemized receipts for your HSA plan, however, your distributions will be reported to you and the IRS via your 1099-SA tax document, so you should retain them for your own tax records. The Expenses section is a great place for you to store your receipts to keep an organized record of them. The IRS recommends for seven years.
